

REMARKS/ARGUMENTS

Favorable consideration of this application, as presently amended, is respectfully requested.

By the present preliminary amendment the specification is amended to correct minor informalities. The changes made to the specification are deemed to be self-evident from the original disclosure, and thus are not deemed to raise any issues of new matter.

A new Abstract believed to be in more proper format under United States practice is also submitted herein.

Further, claims 1-20 are canceled without prejudice and new claims 21-40 are presented for examination. New claims 21-40 are deemed to be self-evident from the original disclosure, including the original claims, and thus are not deemed to raise any issues of new matter. New claims 21-40 are also not believed to be more narrow in scope in any aspect in comparison with canceled claims 1-20.

The present application is believed to be in condition for a full and thorough examination on the merits. An early and favorable consideration of the present application is hereby respectfully requested.

Respectfully submitted,
